Our Methodist brethren held a festival last week, at their church, which was quite a success; proceeds amounting to near one hundred dollars; several of the ladies appear-ing in masquerade costume. It was conducted by Mrs. Nichols, of Leavenworth, Mrs. Amsbury, Mrs. Kennedy, Mrs. Devoe, and Mrs. Long. of our city. A general good time was had, and everybody was pleased.

Our place was highly complimented, last Friday evening, by a political "side-show." The principal performers were Messra. Bridges, Blair, Wood, Webb, Campbell, and Close; ted by Manny Reville, and had Judge Wilkinson been here, to have explained it to the natives, it would have been complete. It was, however, very good, with Bridges and Blair as end med, Webb in tragedy, Wood in edy, Campbell and Close as stock—I mes akee up a troupe of amateurs which," with a little practice and a good tutor, will, in a short time, vie with Christy a renowned Minstrels of New York. Mesers, Leigh and Martin propounded several conundrums, which were answered by Blair and Close. If election day did not colapse some of them, we hope they may induced to give us

we think unwisely—by some parties, to gratify personal the matter, have wisely concluded that there is no better locality than this, and have assured the people here that the slogan cry of "We'll move it, we'll move it if you don't give us more money," which has been so often raised in the past, and the shock of which has nearly rainraised in the past, and the shock of which has nearly rained the nervous system of many of our citizens, will never again be raised. One word of advice, although emanating from an humble source, may not be amiss, however it is gratuitous:—Gentlemen, could not a little more economy be practiced! would it not be better to pay the hard-work-ing brick-makers, and the overtasked professors a little more promptly, that they might not become financially embarrassed, than to pay three thousand dollars for a pile of worthless brick-bats to a capitalist, which did not cost him a cent, and another thousand dollars to move that uscless rubbish! If it does not send as much glory abroad, it will saver more of good work at home. Now that the matter is settled, and the location is permanent, let a good building be erocted, that will be an ornament and an honer to the place; do not wait for the Lord to do all these things, but go to work with a will, as the old maximis as true now as ever, that "God belps those who kelp themselves then, and not till then, will success crown your efforts.

Most of the farmers are gettting tired of waiting for higher prices, and are bringing in their products, as the heavy shipping bills of Gregg & Bro. will amply testify. The Baptist denomination are holding a continued meet ing at the German church, south-west of this place. We understand that they are having considerable success, and any are turning from the path of ungodliness. We wish them well.

Business not Affected. The recent depression in business has not affected the cassenger traffic of the St. Louis, Kannas City & Northern Short Line, as they continue to run six fast express tra free more than any other line between the Missouri and Mississippi Rivers. This road enjoys great immunity from accidents, by reason of immease expenditures in the last two years, of over two midion dollars, besides earnings, in wonderful improvements, in relaying their line with stock supplied with all modern applicances for comfort and safety, and as another safeguard, employ night and day watchmen to inspect the road before and after the passage f each train, to see that everything is in order. Cons cions among new improvements is the substitution for or-dinary cars, of new reclining chair coaches, elegantly car-peted and fitted with dressing rooms for ladies, gentlemen and families, without any extra charge. The St. Louis Kansas City & Northern and the Kansas City, St. Joseph & Council Bluffs Railroad form the only line running Louis. The shortest line between the West and the East is over the St. Louis, Kansas City & Northern Short Line, either through St. Louis, the great metropolis of over 430,000 inhabitants, or through Chicago, ris the Chicago & Alton Short Line, over the Louisiana Bridge now open for passage of through trains. THE ALDINE THE ART JOURNAL OF AMERICA.

Issued Monthly. 'A Magnificent Conception, wonderfully carried out.'

"A Magnificent Conception, wonderfully carried out."

The necessity for a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably followed each attemps in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheanness, as compared with rivale of a similar class. THE ALDINE is a unique and criginal conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there is the chrome, besides?

The national feature of THE ALDINE must be taken BACON, LARD, DRIED BEEF,

rolames for ten times its cost; and then, there is the chronic, besides?

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a sirictly American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a leading characteristic, the partons of THE ALDINE, as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign masters, giving subscribers all the pleasure and instruction obtainable from home or foreign sources.

The artistic illustration of American sconery, original with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the astistatory treatment of details than can be afforded by any inferior page. The indictious interspersion of land-scape, marine, figure, and animal subjects, smatain an unshated interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALEINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfers with the

accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfere with the popular interests of the work. PREMIUM FOR 1875.
